附 件:

Dear Mr Chen:

Here is a copy of the decision letter for manuscript "The Apple DNA-Binding One Zinc Finger Protein MdDof54 Promotes Drought Resistance" by Qingmei Guan, Pengxiang Chen, Mingjia Yan, Lei Li, Jieqiang He, Shuangxi Zhou, Zhongxing Li, Chundong Niu, Chana Bao, Fang zhi, and Fengwang Ma [Paper #HORTRES-02768R2], which you were a Contributing Author.

You can now use a single sign-on for all your accounts, view the status of all your manuscript submissions and reviews, access usage statistics for your published articles and download a record of your refereeing activity for the Nature journals.

In addition, NPG encourages all authors and reviewers to associate an Open Researcher and Contributor Identifier (ORCID) to their account. ORCID is a community-based initiative that provides an open, non-proprietary and transparent registry of unique identifiers to help disambiguate research contributions.

Sincerely,

Dr. Max Cheng
Editor-in-Chief
Horticulture Research

Subject: Horticulture Research-decision on your Article [HORTRES-02768R2]

Manuscript Number: HORTRES-02768R2

Title: The Apple DNA-Binding One Zinc Finger Protein MdDof54 Promotes Drought Resistance

Authors: Qingmei Guan, Pengxiang Chen, Mingjia Yan, Lei Li, Jieqiang He, Shuangxi Zhou, Zhongxing Li, Chundong Niu, Chana Bao, Fang zhi, and Fengwang Ma

Dear Professor Guan,

Thank you for your submission of manuscript [HORTRES-02768R2] entitled The Apple DNA-Binding One Zinc Finger Protein MdDof54 Promotes Drought Resistance to Horticulture Research. I am very pleased to inform you that your above mentioned manuscript has now been accepted for publication in *Horticulture Research*.

PLEASE READ THE FOLLOWING CAREFULLY

Licence to Publish

- The corresponding author of an accepted manuscript is required to complete an Open Access Licence to Publish on behalf of all authors; a link to the online portal through which you can submit this licence agreement will be

sent in a separate email.

Please note that your paper cannot be sent for typesetting to our production team until we have received the above information.

Proofs

- Prior to typesetting, we may make minor changes to enhance clarity and to conform to *Journal's* style. We would therefore ask you to examine the proofs carefully to ensure that the sense of your text has not been inadvertently altered in any way.

Cover image

- We welcome the submission of potential cover images related to your manuscript. If you have not already submitted a potential cover suggestion and would like to do so now you may send your files to the Horticulture Research editorial office (hortres@njau.edu.cn). Each individual email cannot exceed 5 MB. Images should be sent in low resolution, 300 dpi at 210 x 297 mm and 300 dpi at 119 x 34 mm, in either TIFF or JPEG format. Image in 300 dpi at 119 x 34 mm will be used as potential banner image on our website, image in 300 dpi at 210 x 297 mm will be used as potential cover image in our printed version. If your suggestion is selected, the editorial office will request a high resolution image. Each suggestion should be accompanied by a caption of no more than 40 words. We cannot promise that your cover suggestion will be used, as competition is intense.

Thank you very much for submitting your work to *Horticulture Research*.

Yours sincerely,

Zongming Cheng
Editor in Chief
Horticulture Research

COVID 19 and impact on peer review

As a result of the significant disruption that is being caused by the COVID-19 pandemic we are very aware that many researchers will have difficulty in meeting the timelines associated with our peer review process during normal times. Please do let us know if you need additional time. Our systems will continue to remind you of the original timelines but we intend to be highly flexible at this time.

Please DO NOT reply to this mail directly. All correspondence should be addressed to hortres@njau.edu.cn if you want to contact the Horticulture Research Editorial Office. This email has been sent through the Springer Nature Manuscript Tracking System NY-610A- Springer Nature & MTS.
